SPLIT-FIRE

The Picture Perfect INVESTMENT

4090 HORIZONTAL WOOD CHIPPER

The new SPLIT-FIRE® 4090 Horizontal Wood Chipper is designed for continuous heavy-duty use. It is a self-feeding wood chipper capable of handling untrimmed branches, bark, leaves, and stringy wood to produce consistent 1/2 inch to 3/4 inch wood chips or mulch.

As with all SPLIT-FIRE brand products, the 4090 wood chipper is low maintenance; only requiring occasional engine and belt service, and blade sharpening or replacement.

Horizontal Wood Chipper Features & Benefits:

COMPACT SIZE

Safe and easy for customers to tow or to move around the yard

OPERATOR SAFETY

36" long in-feed chute and protective shield keeps hands at a safe distance from rotor and blades

HIGH CAPACITY

Rated for 4" diameter branches and featuring large opening to handle untrimmed branches and stringy or leafy material

BETTER ERGONOMICS

Designed with a low profile for easy loading and comfortable operation

POWERFUL ENGINE OPTIONS

Honda GXV and Kohler Engine options

HEAVY DUTY CONSTRUCTION

3/8" plate chipper box and heavy-duty 100lbs rotor for constant rental grade use

LOW MAINTENANCE

Quick latch removable in-feed chute, easily access belt, anvil, and bed blades for easier / faster servicing
